EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Stephen Weiss on 3/27/04.

The application has been amended as follows:

Claim 1, line 7, "on" has been changed to – in --; line 9, -- and extended outwardly from the housing – has been inserted after " arm"; line 15, -- , wherein the movable switch contact portion of the movable terminal and the fixed switch contact portion of the fixed terminal comprise generally planar plates having interengaging wiping surfaces of substantial size which wipe over each other when the contact portions move relative to each other – has been inserted after "chamber".

Claims 5 and 9 have been canceled.

Claim 6, line 7, "on" has been changed to – in --; line 9, -- and extended outwardly from the housing – has been inserted after " arm".

Claim 8, line 5, "on" has been changed to – in --; line 8, -- and extended outwardly from the housing – has been inserted after " arm"; line 13, -- , wherein the movable switch contact portion of the movable terminal and the fixed switch contact portion of the fixed terminal comprise generally planar plates having interengaging

Art Unit: 2833

wiping surfaces of substantial size which wipe over each other when the contact portions move relative to each other – has been inserted after “plug”.

This application lacks formal drawings. The informal drawings filed in this application are acceptable for examination purposes. When the application is allowed, applicant will be required to submit new formal drawings.

The following is an examiner's statement of reasons for allowance:

Claims 1-3, 5-8 and 10 are allowable over the prior art of record for at least the reason that the prior art fails to teach or suggest a movable switch contact portion connected to the spring arm of the movable terminal and extended outwardly from the insulative housing and wherein the movable switch contact portion and the fixed switch contact portion have generally planar plates which wipe over each other when the contact portions move relative to each other.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hien D. Vu whose telephone number is 703-308-2009. The examiner can normally be reached on 9-5.
